Community Leaders and Students Clean Up Rolla

The Fourth Annual UMR-IFC Community Clean-up was held on Saturday, November 8, which proved to be a beautifully warm and sunny day. This project was a coordinated effort of the Inter-Fraternity Council, the City of Rolla. Its success was measured by the full cooperation and action of all the

citizens of Rolla that joined with the more than 150 members of the Inter-Fraternity Council who volunteered to improve the appearance of our hometown. The members of the coordination committee were: Mr. Gary Broyles and M.R. Gene Gaddy, Rolla Area Chamber of Commerce; Mr. George Curtis,

City of Rolla Sanitation Department; and M.R. Rich Fleschner, IFC.

The main objectives by this project were:

(1) A better personal awareness by the citizens of our area that a cleaner city reflects a greater pride in ourselves and the environment of our hometown.

(2) That by placing special efforts to the pick up of trash and litter of all sorts in the central business district and the downtown area, it will be an example for both our local citizens and our visitors that we do care about our community image and strive to discourage those who spread the national "litter-bug" disease.

(3) The annual accomplishments of gathering up tons of trash throughout our city, which results in a cleaner

more acceptable appearance for all to see and enjoy.

Saturday's Clean-up project was conducted such that Inter-Fraternity Council teams were assigned to pick up trash throughout the area bordered by the following roads: (western border), Highway 63; (northern border), as far as 19th Street; (southern border), Highway 72; and (eastern border), as far as Angus Valley.

All business firms and residents within this described area were asked to place their trash on the curb in front of their property where it would be picked up. Assisting the city sanitation department were additional trucks and drivers which had been volunteered by civic-minded business firms and others.

There were also members of the Panhellenic located at the

intersections of 10th and Pine, and 12th and Pine, passing out free litter bags to motorists until the supply of 3000 was nearly exhausted.

Mr. Ed Owsley, Chamber Executive, and Mr. George Curtis estimated that approximately 20 tons of trash were picked up on Saturday morning. Mr. Ed Owsley, speaking on behalf of the Coordinating Committee expressed their personal appreciation to the Inter-Fraternity Council and all its members.

The IFC wishes to thank: Mr. Ed Owsley, Rolla Chamber of Commerce, for the effort he put into organizing and aiding the clean-up; the sanitation men and Mr. George Curtis who worked overtime on Saturday; and Mr. Gary Broyles especially for his efforts and his donation of the litter bags.

UMR Names

Who's Who

A total of 20 students at the University of Missouri-Rolla will be listed in the 1974-75 edition of Who's Who Among Students in American Universities and Colleges.

The annual directory lists campus leaders from more than 1,000 of the country's institutions of higher learning. Students are selected on the basis of campus activities, leadership abilities and scholarship.

UMR students selected are listed below.

Richard A. Fleschner, is a senior in mechanical engineering.

David K. Denner, is a senior in chemical engineering.

Jeanne Achelpohl, is a junior in metallurgical engineering.

Michael Griffin, is a senior in petroleum engineering.

Paul Edward Williams, is a senior in nuclear engineering.

Carroll D. Muenks, is a senior in civil engineering.

Harold M. Harder, is a graduate student in mechanical engineering.

Neil F. Frankenberg, is a senior in mechanical engineering.

William F. Lueckenhoff, is a senior in civil engineering.

Denise M. Lovasco, is a junior in life sciences.

Thomas N. Underhill, is a senior in civil engineering.

Rudolph H. Fischer, is a senior in mining engineering.

Larry G. Hamrick, is a junior in computer science.

Joseph C. Offutt, is a senior in engineering management.

William Alan Benson, is a junior majoring in geological engineering.

Dennis S. Rackers, is a senior in civil engineering.

Judith L. Flebbe, is a senior in chemical engineering.

Harvey Brad Scott, is a junior in life sciences.

Martin K. Reynolds, is a senior in electrical engineering.

Thomas E. Meyer, is a junior in civil engineering.

Ric Masten to Appear at UMR

Ric Masten, poet-philosopher, troubador, will appear in concert at the UMR campus, Mechanical Engineering Auditorium, on Thursday, November 13, 1975, at 7:30p.m.

Masten is one of the few widely-traveled poets who works in the oral tradition and makes his living at it. His work is written to be heard-live-either spoken or sung, although four books of his poems have been published. His subjects include a wide range of things — love, marriage, work, loneliness, suicide, death, meaning in life — and each of his presentation is designed on the spot, editing as he goes along, taking his cues from what he feels about the audience in front of him. This makes every program different and gives one the sense of being

engaged in conversation rather than watching a one-man show.

Ric, who makes his home in Big Spur, California, has been in his life a trashman, day-laborer, artist and, in Hollywood, a professional songwriter-publisher (rock), and since 1968 a poem-songwriter-reader-singer. He has cut 11 LP records, appeared on many university campuses, and served as poet in residence on several campuses.

The chorus of one of Rick Masten's songs might best sum up what he hopes will happen at his presentation:

Let it be a dance we do, may I have this dance with you, through the goodtimes, and the bad times too, let it be a dance. Admission is free.

New Miner Office

The new MISSOURI MINER office is located in the same building (T-1, between Harris Hall and State Street) but has been moved to the north end.

All articles, notices, letters to the editor and classified ads may be put in the door mailbox anytime, day or night.

FRANKENSTEIN

G.D.I. is presenting the original Frankenstein starring Boris Karloff along with a Pink Panther cartoon, tonight at 7:30 p.m. in the St. Pat's Ballroom of the Old Student Union. Admission is 50 cents; free to members of G.D.I.

PSYCHOLOGY STUDENTS ASSOCIATION

There will be a meeting this Thursday (today) at 7:00 p.m. in 213-214 old Student Union. Featured will be Wanda McFerron from the Rolla Diagnostic Clinic. Should be an interesting and informative time. All are welcome!

COMMENCEMENT ANNOUNCEMENTS

"Commencement announcements are now available for all graduating students in the Registrar's Office"

SHORT-TERM LOANS

Students making short-term loans to cover semester tuition and fees MUST make application not less than two weeks prior to registration.

IWL PLANS

The Independent's Week-End Committee has started planning for the 1976 festivities. This year's officers are Ed Hohlt, chairman; Greg Easson, secretary; Vern Lenzini, treasurer. The next meeting will be Tues. Nov. 18 at 9 p.m. in room 121 M.E. All interested parties are encouraged to attend.

SUB DANCE

Friday night, November 14, the Social Committee of the Student Union Board presents its November dance featuring the explosive sounds of Shawbuck. The dance will be held in Centennial Hall and will run from 8:00 to 12:00 p.m. Admission is free with a valid UMR ID.

SCUBA CLUB

The UMR Scuba Club will have a general meeting Monday Nov. 17th at 8:00 p.m. in 118 M.E. A representative from the Diving Chamber will have a presentation on diving at Bonne Terre Mines and on development of new equipment. Everyone welcome.

ASME

The ASME will present Jim Redpath of Caterpillar speaking on "International Marketing, Sales Engineering, Product Support, and Service" with slides from Caterpillar's South African operation.

The meeting is scheduled for Wednesday, Nov. 19, at 7:00 p.m. in G-5 H-SS. Refreshments will be served and memberships will be taken.

IFC SING

The annual UMR IFC Sing will be held Friday, Dec. 5, at 7:30 p.m. in Centennial Hall. Admission is free.

October

Blue Key Miner of the Month

Blue Key would like to recognize the October Miner of the Month, Bill Sample, for his outstanding achievements. Bill was nominated for this award by two organizations for two separate reasons.

Gamma Alpha Delta nominated Bill for his work on the Missouri Student Volunteer Conference held October 23 on the campus of the University of Missouri at Columbia.

The conference, open to all Volunteer groups in the State of Missouri, was sponsored by the Missouri Volunteer Office, in Jefferson City. Nine discussion seminars were held at the conference with Gamma Alpha Delta presenting a seminar titled: "The Volunteer Strength of Fraternities, Sororities, and Service Clubs." The seminar was noted as one of the more interesting and productive presented at the conference.

Bill as Publicity Chairman was directly involved in the preparation and presentation of this seminar.

Sigma Phi Epsilon Fraternity nominated Bill for his work on the Spirit Run for Better Breathing, October 10th and 11th. The Spirit Run was sponsored by the UMR chapter of Sigma Phi Epsilon and involved three other fraternity groups throughout the state in a run to University of Missouri at Columbia. Lt. Gov. William C. Phelps recognized the four fraternities during the half-time ceremony of the Missouri-Oklahoma State football game for their combined collection of over \$3,000. This money was

Bill Sample

pledged by businesses and individuals throughout the state and donated to the Aermican Lung Association. Bill Sample was directly involved in the organization of this activity. It demanded much of his time and through his efforts the Spirit Run was a success.

Blue Key would also like to recognize two more top nominations for the October Blue Key Miner of the Month. M-Club nominated Dan Wenk and Mark Snowden for their efforts in reorganizing the "12th Man Award" and Alpha Phi Omega nominated Jim Junge for his work on the APO Walk-a-thon.

the missouri miner

The MISSOURI MINER is the official publication of the students of the University of Missouri-Rolla. It is published at Rolla, Missouri, every week during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879. The subscriptions are \$3.50 per semester. This MISSOURI MINER features activities of the students and faculty of UMR.

Stolen Items Recovered in Student's Quarters

Acting on information supplied by the Missouri State Highway Patrol, members of the University of Missouri-Rolla police department Wednesday, Oct. 29, initiated a search of the campus living quarters (T-2) occupied by students attending UMR through the State Department of Corrections' Educational Release program.

Larry Pitts, supervisor-education release program (an employ of the Department of Corrections) made the search, accompanied by a UMR police officer. They found two hand guns concealed on the premises. The guns were turned over to the University Police and were later identified as having been stolen in Phelps County about Oct. 15.

Officials of the Department of Corrections were notified of the results of the search. They sent Major B.B. Turner and three men from the department to Rolla Wednesday for further

investigation. Another search revealed a tape deck, later identified as having been stolen from a car in Rolla Oct. 15.

As a result of investigation following the discovery of stolen items in the living quarters of inmate students, the University of Missouri-Rolla police have filed charges against Harlan D. White, a participant in the State Department of Corrections'

educational release program. White, originally from St. Joseph, is serving a seven-year sentence for second degree burglary and stealing and for carrying a concealed weapon. He has been a student on the UMR campus, as a member of the education release program, since the fall semester began in August. Other charges against White were filed by both Dent and Phelps counties.

Helping Others

The 1975 fall pledge calss of Alpha Phi Omega completed their pledge project last weekend. The effort was coordinated by Paul Kelly from Vista Volunteers, Dave Lewis, pledge master for APO and the officers of the pledge class.

The purpose of the project is the same as that of APO: To be of service to the community.

During the weekend six homes of senior citizens of Rolla had their storm windows installed for the nearing winter. Also, touch-up jobs were done by scraping and repainting around the windows.

The idea of working together for the betterment of others is the purpose of Alpha Phi Omega. Thanks to all who helped.

S.C. Announces Appropriations

The Student Council Appropriations Committee met Monday, Tuesday and Wednesday of the week beginning September 29. Organizations' request forms for appropriations were reviewed in order of increasing requested amounts. Representatives from new organizations or organizations for which the committee had additional questions not covered by the request forms were called before the committee on Tuesday and Wednesday nights. These representatives were questioned about the organization's plans for use of any appropriated funds, about any questionable financial history, and about the objectives of new organizations. The organizations not asked to send a representative were equally considered.

The following is a summary of the Committee appropriation recommendations as approved by Student Council, Dean Ponder, and Chancellor Bisplinghoff:

Organization	Request	Student Council Appropriation
UMR Amateur Radio Club	\$ 150	\$ 0
WOEEE		
UMR Sports Car Club	150	0
Radiers	150	0
International Students	200	100
Mates	250	0
Rock Climbing Club	290	100
Greater Rolla-UMR		
Metropolitan Literary Society	300	0
History Club	300	175
Indian Association	300	0
Pershing Rifles	350	0
Soccer Club	350	200
Chinese Club	400	100
Russian Club	445	0
Economics Club	450	275
Psychology Club	450	275
UMR Engineer	500	400
UMR Water Polo Club	575	400
UMR Theater Guild	1000	775
UMR Trap & Skeet Club	1170	0
UMR Rugby Club	1200	400
TOTALS	\$8980	\$3200

The total Student Council Appropriations of \$3200 is the maximum budgeted for the committee.

Damn Fool's Opinion

Multi-Problems Building

Editorial Comment
by SAM RUCKER

Damn Fool's Opinion will be a regular Miner Editorial, providing we can find enough staff members to voice foolish opinions. The reason for this title is that anyone who thinks the University Administration (or anyone else for that matter) pays any attention to Miner editorials is a damn fool.

If any of our management courses on this campus would like to study an excellent example of inefficient operation, they should consider the Multi-Purpose Building. Not only is this modern, well-lighted and well-ventilated building understaffed, the existing staff and its policies are badly mismanaged.

To begin with, how many students actually use the gym and pool at 9:00 on weekday mornings? Not nearly as many, I dare say, as would like to use these facilities Saturday and

Sunday evenings. Yet the building is open to use early every weekday morning and closes at 8:00 Saturday evening and 5:00 Sunday evening. At least that's what it says on the "official" schedule. Actually, many has been the time I've been ushered out of the building at 7:35 when I was expecting to stay until 8:00. This situation is more of a problem now than in the past, since the advent of women's sports combined with intramural sports makes the Multi-Purpose Building gym essentially unusable to students just wanting to "shoot around" from 3:30 until closing time on weekdays. Unfortunately this is the best time to "shoot around" for most students. I suppose one other solution to the problem is to build another gym somewhere else on campus but I don't regard this suggestion as particularly feasible.

If you ever look in on the gym about 7:30 on a Friday evening you'll most likely see many UMR students playing basketball and volleyball. You'll have to look awfully hard to see any faculty, however. The point is, Friday night is faculty night and students can't check out equipment. If you don't have your own basketball or volleyball and you're not faculty, tough luck. Now I've nothing against faculty night, especially if it means that this is the only way faculty can be assured use of the facilities. But when there is not a single faculty member around all Friday evening, then why should students not be allowed to check out equipment? Yet try telling the guy at the equipment checkout desk that there are no

faculty members where you want to play and all you want is a ball. A typical response is "Sorry, I'd get in trouble if I did that." If this is really true (I doubt it) then I think it's time for a change! I personally don't think the faculty are that special that there should be a faculty night, though I'll go along with it. But if students can't even use vacant facilities because of it, I call it unfair and entirely uncalled for.

In keeping with the general atmosphere of mismanagement around the Multi-Purpose Building is the light situation. On all switches throughout the building is the customary sticker requesting that the lights be switched off when not in use.

Okay, fine. Now what I want to know is why are the gymnasium lights left on all night so that the building (at least from the outside) looks fully lit even at 2:00 in the morning? Those lights are pretty big in there and so is our electricity bill. I don't know if this is customary policy with other buildings around the school. If it is, I'd like for someone to inform me why. UMR, as with most academic institutions is facing a period when careful management and conservation of resources is crucial to its very existence. I think in the case of the Multi-Purpose Building we have one area of the campus which could undergo a significant amount of reform in its management, both for convenience to students and economic purposes.

ediletters

fix Nagogami!

Dear Editor:

I'd like to respond to Jim Grace's letter in the Miner Oct. 30th. Glad to hear of a group that has been helped by Auxiliary Enterprises (mainly Mr. Zink). Wish I could see more letters like yours for I'm always glad to hear of the good that is done. Sorry to say I haven't seen the same with the way Auxiliary Enterprises has handled the student housing at Nagogami Terrace. Sure we've seen some improvements made to the outside like a new parking lot, trees and 2 sidewalks. Meanwhile the kids playground equipment is falling down and

very dangerous. They tell us they can't afford to put back up the fence that was torn down to make room for the new parking lot — it separated the grounds from I-44 which is less than a block away. Now any kid can wander onto the interstate. Most upstairs apartments don't have sufficient heat because of clogged vents. Fifteen to twenty year old stoves, refrigerators and furnaces have not been overhauled and too many don't do their job. Many apartments never get a fresh paint job and are dirty when new tenants move in (I suppose this is a luxury though). Etc. etc. etc. When will some money be spent on the things that do matter? Sure I know the buildings have bonds on them but surely not close to the \$50,000 (at least) that is taken in yearly from rent from the Terrace. The students

of Nagogami don't want luxuries, just things that work right, and they would like the housing office to be more sincere and approach things with good will.

Sincerely,
Mary Sadowski

better living

through pollution?

Miner Editor:

One of our campus publications is the UMR Engineer, which is published four times a year by a student staff. The October 1975 issue's Spotlight was on a recent Missouri Energy Council conference of theme entitled: "Energy Crisis — Two Years Progress, Towards Self-Reliance." Throughout the issue, there are descriptive accounts of technological developments in various means by which to obtain energy. However, towards the end of the periodical is a regular feature, "Better Living Through Engineering Dept." I understand the next month this article will be on "How to increase gas mileage by bypassing your emissions control system."

After reading this suggestion of things to come, I questioned the ethical standing of the Engineering profession. It is my

understanding that Engineers are to be as concerned for the state of the environment in the next few years as satisfying the current demand for energy resources. The Federal government is making an attempt, however feeble, to combat air pollution due to automobiles by setting engine emissions restrictions. Automobile manufacturers are complying by installing the only economical devices yet designed for controlling harmful exhaust gases.

I'm sure everyone is aware of these activities, or else people would not be deliberately bypassing such systems. It can be argued that the current engine additions for controlling emissions are not as effective as we are led to believe, rob the engines of horsepower, and waste gasoline. The purely mechanical issues of the problem have been rendered academic at this point.

As a sophomore Mechanical Engineering student, I plan to place emphasis on the design phase of energy — obtaining methods. I am concerned about the welfare of future generations as well as the present; after all, aren't we of the same generation which protests so vigorously the physical condition of the world because of wasteful industry practices and government inaction against them? Even a reasonable facsimile of government movement towards correcting mistakes made in the past or preventing future

destruction at a geometrical rate should be supported by Engineers.

There are no other groups of people with the potential of solving the problems society demands to be reconciled materially than Engineers. It would be best if we served as the epitome of tomorrow's technology as sincere advocates of government legislation, than of Hypocrites. As far as future generations are concerned, how can this possibly be better living through engineering? Perhaps I am too easily alarmed by the chance of such an article ever being printed by engineering students, and I hope it never will be.

Sincerely,
Ted Bestor

on

university policy...

Dear Editor:

Over the past several months, several articles have appeared in the Miner newspaper regarding Red Cross activity and how it has been abused by the Department of Auxiliary Enterprises, "University Center staff". The most recent "Letter to the Editor" submitted by Dorothea Wolf, printed in the October 23rd issue, continued to perpetuate the poor hospitality extended to the Red Cross Blood Drive.

The established policy and application of this policy applies equally to all groups, campus or outside, who wish to utilize the University Center. The University Center staff extends the same type of hospitality and service which are established policies of the University system and does not nor should show partiality to any group.

Several facts need to be explained which relate to the continuous concern in question.

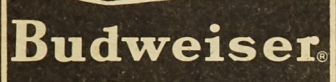

1. "Food Supplies: All food in food-service establishments shall be from sources approved or considered satisfactory by the Division of Health, and shall be clean, wholesome, free from spoilage, free from adulteration and misbranding, and safe for human consumption. No hermetically sealed, nonacid, and low-acid food which has been processed in a place other than a commercial food-processing establishment shall be used." Sanitation Laws and Regulations Governing Food Sanitation. Department of Public Health and Welfare of Missouri. E 6.12 — Rev. 10-63 Page 4. Section B. Article 1.

2. The University Center is designed to be a self-supporting operation, on student fee allocations and revenue generated from the service operations. Established policy regulating usage is provided on these facts.

3. There are no University policies providing for subsidizing activities of off-campus groups.

4. Policies are established in

Continued on Page 6

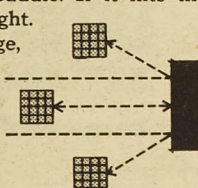

Budweiser

PRESENTS

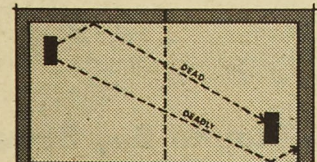

HOW TO WIN AT

Pong

1 You can sometimes control the direction of the ball by where it hits your paddle. If it hits the center it will go straight. If it hits the right edge, it will go right, etc. Flicking the paddle to get a spin might work but is less controlled.

2 Avoid the sharp angle shots since they tend to slow the ball and are easy to return. The most effective angle shots are those that rebound closest to your opponent, the deadliest being the shot that rebounds just as it hits his line of play.

3 Shots down the middle are boring and slow. However, late in the rally after the ball has speeded up, a middle shot can be a killer if used deliberately to surprise your opponent.

STCH a success!

Folk music, magic, classical guitar, bluegrass — all this and more was on the program at the Student Talent Coffeehouse held in the Snack Bar last Saturday night. The performers, all UMR students, played to a packed house of 250 to 300 people. The coffeehouse was sponsored by the Social Committee of the Student Union Board. Tim McGraw, committee director, said that many helpful comments and criticisms have already been received. He urges anyone who as either complaints or compliments to contact any member of the Social Committee, or come by the SUB office, Room 217 old student Union. At this time a similar coffeehouse is being considered for next semester, and your help is needed to make it better.

such a manner to discourage special privileges. This is in my opinion the preferred method of operation.

5. The University, if it discouraged or intimidated the Red Cross, did so by insisting upon the same compliances expected of all groups. Reservations have and will continue to be taken from this agency when placed.

6. The decision to cancel reservations for the 1975-76 academic year was received from Mr. T.B. Cossette, Phelps County Chairman, in a letter dated June 11, 1975. The reasons expressed was a desire to handle their own canteen.

I would suggest that if it is the desire to return the Red Cross to the Campus then a positive position should be taken to determine if food and drink are required and if so that some "on-campus" assistance be provided.

The University of Missouri-Rolla has a fine reputation for hospitality by the Campus and the University Center operation. We have every intention to retain and hopefully improve that status by continuing to serve all our clients in an effective and efficient manner.

Very truly yours,
Joseph D. Wollard
Business Officer.

Miners Lose To Eastern Illinois After Second Blocked Punt

Last Saturday was a perfect day for football with the right sunshine and the temperature in the 70's. Eastern Illinois University spoiled the Miners bid for their first victory of the season by beating the Miners 24-14. The deciding touchdown was set-up when EIU blocked a Miner punt with only 3 minutes left in the game.

The game was, for the most part, a defensive battle. Both teams were forced to punt nine times during the game. And in the end, it was big defensive plays that decided the game.

The first quarter was scoreless, with the teams exchanging five punts. Early in the second quarter the Miners broke the scoreless duel when Steve Townsell ran the ball in from two yards out. The 55 yard drive was powered mostly by

the running of Jim Waechter and Cliff Meisenheimer along with Monte Morse's eleven yard pass reception.

The Panthers first score was set up when they blocked a punt midway through the 2nd quarter, and returned it 14 yards to the Rolla 19 yard line. But the Miner defense was tough and pushed EIU back six yards, so they had to settle for a 41 yard field goal.

After the Panther score, the Miners were unable to move the ball, so EIU got another chance, and they drove 51 yards to score their first touchdown just before the half ended. EIU got a big break during the drive when their field goal attempt was blocked. The officials ruled that Kevin Oberdick had jumped on a Panther lineman's back to block the kick, so they slapped a

15 yard penalty on the Miners, and EIU went on to score four plays later. At halftime the Panthers led 10-7.

The Miners received the opening kickoff of the second half, but three plays later they were forced to punt. The punt was a very high 32 yarder, and on the second bounce it hit a Panther's leg, and was recovered by the Miners on the EIU 41. They took advantage of their good fortune, and scored 7 plays later on Greg Haug's 2 yard quarterback sneak. Now the Miners led 14-10, with 24 minutes left in the game. And it was all up to the defense, since the Miner offense never made it into Eastern territory again.

It was strictly a defensive game the rest of the way, neither team could get much going. The offensive pattern for both teams throughout the

second half was two running plays, a pass, and then punt on 4th down. But then with 2:54 left in the game, a wild Panther broke through the Miner line and blocked Ken Potempa's punt. After a 19 yard return by an EIU lineman, the Panthers were on the Miner 16 yard line. Four plays later they scored the deciding touchdown, on a four yard run, and led 17-14. The final touchdown was set up when a 4th down desperation pass was intercepted just before the end of the game.

Offensively, the Miners rolled up 254 total yards, compared to EIU's 183. Holding a team to under 200 yards is tough, so the Miner defense did do a fine job. EIU had only one long drive during the game, most of their scores a set up by offensive mistakes, not defensive errors.

Steve Townsell led a fine game again, rushing for 90 yards on 18 carries. Fullback Cliff Meisenheimer ran for 62

yards on 14 tries. Jim Waechter was moved from tight-end to wing-back this week, and he picked up 54 yards on 10 carries.

The leading Miner receiver was again wide-receiver Monte Morse, who pulled in 3 passes for 31 yards. Greg Haug completed 7 of 19 passes, for 65 yards.

The final home game for the Miners will be this Saturday against Northwest Mo. State. Last week a very small crowd showed up for the game, which turned out to be a very exciting one. If the weather is still good Saturday, there should be no excuse for a sparse Miner crowd.

Miner Volleyball Squad Ties For Fourth In State

This past weekend the UMR Women's Volleyball team competed in the third annual Small College State Volleyball Tournament held at Southwest Baptist College in Bolivar, Missouri. The eight teams playing were UMR, Missouri Southern, School of the Ozarks, Southwest Baptist College, Stephens College, Tarkio, William Jewell and William Woods.

The Miner finished the tournament with a 7-7 record,

good enough to tie for fourth. The tournament was won by Stephens, who had a 12-2 record, one of those two defeats coming at the hands of the Miners. Tarkio and Southwest Baptist College finished regular play with both having a 10-4 record. Tarkio defeated Southwest Baptist College in a playoff to capture second place. Stephens and Southwest Baptist will play November 17, 18, and 19 at Kearney, Nebraska in the Region Six playoffs, which is the next step toward Nationals.

The Miners played each team twice and their record was as follows:

Missouri Southern; 1 win, 1 loss, Tarkio; 2 losses, William Jewell; 1 loss, 1 win, and William Woods; 2 wins.

This was the last play for the women, but basketball practice started last Monday, so anyone interested in Women's Inter-collegiate Basketball should see Coach Annette Caruso at the Multi-Purpose Building soon.

M-Club

athlete of the week

M-Club's "Athlete of the Week" goes to Rick Petri, co-captain of the Miners football team. At 5'11" and 223 pounds from Eureka, Mo., Rick has anchored the defensive line which has consistently played well all year. Not only is he recognized for his personal success at defensive tackle, but also for a great job as co-captain. He never let the defense give up even though the offense continued to commit turnovers. It's a tough job to keep fighting under those conditions.

For this outstanding play at defensive tackle and for his leadership as captain, M-Club would like to recognize Rick Petri as "Athlete of the Week." Along with Petri on the defensive line are Terry Owens, Kevin Oberdick, Kent Lewis, and Gary Misak.

Miner Ruggers Sweep Two Games From St. Louis

The UMR Rugby Club showed off their stuff this weekend as they ripped apart the St. Louis Royals 42-0. This is the highest tally put together by the Rolla club since its early years.

Randy Dudenhoffer opened the scoring, rumbling 15 yards through the heavy traffic to score Rolla's first four points. Steve Perko and Dave Johnson added two more tries before the half came to a close with Mike Starkweather converting all three tries for a 18-0 lead. The

second half proved to be even more exciting than the first with Karl Schenke scoring twice; Steve Perko adding his second try, and Lewis Shaw and Jim Doubek adding yet two more. Mike Starkweather again converted two more to give the Miners their first shut out victory of the season. UMR, which traditionally boasts a strong scrum, showed an extremely well groomed backfield, running rampant through the Royals' squad.

In the second game, Mike Jerme captained the gold squad to their first shut out victory, 12-0. John Burton, Chet Sanders, and Bruce Bales scoring 4 points apiece.

Both Rolla sides showed superb ball handling and excellent hustle. The 1975-76 Rugby Club may be the best ever fielded from this school. Only one more game remains this year, so come on out and cheer November 22nd, when UMR hosts the St. Louis Rebels.

Soccer Team Splits

The UMR Soccer team exhibited last weekend why this past season has been such a disappointment. On Saturday, the Miners played host to Southwest Missouri State and played perhaps the best game of the entire season, beating Springfield 3-1 on 2 goals by Larry Oliver and one by Jim Matejcic. Sunday, however, was a different story. The soccer Miners travelled to Lindenwood College 'St. Charles' and ended the Lions' winless streak at 34 straight by losing, 3-2. Hampered by injuries and players that just

didn't bother to show up, UMR rolled over and played dead for a full 45 minutes. The second half action suggested a full scale comeback for the Miners as 2 goals by Steve Schaeffler brought the Miners within reach, but disorganized play, fatigue and bad breaks let the game slip out of grasp.

The Miners close out regular season play this Sunday in Warrensburg against Central Missouri State. There is still a possibility of a post-season tournament here in Rolla on the weekend of Nov. 22. Check next week's Miner for any further details.
